Webb’s DOK 4 as a filter for Transfer

Every child can access DOK 4 through transfer of knowledge and skills.

DOK 3 (knowledge analysis)
Think strategically and reasonably about how and why concepts, ideas, operations, and procedures can be used to attain and explain answers, conclusions, decisions, outcomes, reasons, and results.

DOK 2 (knowledge application)
Use academic concepts and cognitive skills to answer questions, address problems, accomplish tasks, and analyze texts and topics.

DOK 1 (knowledge acquisition)
Recall and reproduce data, definitions, details, facts, information, and procedures.

DOK 4 TRANSFER (knowledge augmentation)
Think extensively about what else can be done, how else learning can be used, and how could the student personally use what they have learned in different academic and real world contexts.

Transfer Task Examples
How else can this knowledge be used?

Try it for your unit:
How could DOK4 be used as a filter for transfer from DOK 1, 2, and 3?
